## **Raabe Company Announces Release of New Web Site Upgrade**

**Menomonee Falls, WI – December 14, 2010** – Raabe Company is proud to announce the launch of its new and improved web site, which makes information about the company easier to access and offers additional ways to keep customers updated.

The web site, [www.raabeco.com](http://www.raabeco.com) (same address as the old site) was designed with smoother functionality and ease of use in mind, which is an effort to further contribute to a pleasant customer experience.

Along with our new web site we hope that Raabe customers will be more willing to go online to obtain information on technical data sheets, updates, new releases, and how-to videos.

“We are excited about how good the web site looks while allowing our customers to learn more about our products and how they can meet their needs,” stated Steve Hughes, Vice President.

Hughes added that it will be easier for visitors to navigate on the new site. “Part of our goal in redesigning the site was to make it more user friendly so visitors and customers can more easily find what they are looking for,” he stated.

### **About Raabe Company**

Raabe is a leading manufacturer of custom matched branded touchup paint and provider of private label aerosol and liquid paint filling services. No other custom color company has the experience and capacity that Raabe brings to the table. They process over 100 guaranteed color matches every business day, while providing over 18,000 custom color matches per year.
