

CUSTOM COLOR TOUCH-UP PAINT INNOVATIONS  
FOR AUTOMOTIVE OEMs

RAABE GETS IT RIGHT

# RAABE EXPERTISE: INNOVATIVE AUTOMOTIVE TOUCH-UP PLATFORMS

## GUARANTEED COLOR MATCH TOUCH-UP PAINT THAT AUTOMOTIVE OEMs TRUST

No other custom color company has the experience and capacity that Raabe brings to the table. We process over 100 guaranteed color matches every business day. We are able to provide over 18,000 custom color matches per year. Each one individually formulated using our own concentrates to ensure that the Precision Color® we make for you is so precise, it's invisible.

Raabe delivers custom color matches to your exact OEM automotive standards. What's more, we match to your standard not just the first time, but every time you place an order.

**Raabe gets it right.**

### AUTOMOTIVE TOUCH-UP INNOVATIONS

High Performance Acrylic Lacquer	Single-Stage	Class C & D	Aerosol, Pens, Bottles, Bulk
High Performance Acrylic Enamel	Single-Stage	Class C & D	Aerosol, Pens, Bottles, Bulk
BASF Diamont®	2-Stage Base Clear	Class A, B, C & D	Aerosol, Pens, Bottles, Bulk
BASF Glasurit®	2-Stage Base Clear	Class A, B, C & D	Aerosol, Pens, Bottles, Bulk
Lacquer for Plastic Surfaces	Single-Stage	Class A, B, C & D	Aerosol, Bulk

### INTRODUCING RAABE'S EXCLUSIVE SINGLE-STAGE SYSTEM FOR AUTOMOTIVE OEMs

Our quick-drying, high-performance acrylic lacquer and acrylic enamel are winning rave reviews from OEMs; particularly for Class C and D applications such as door jambs and under the hood. It gives you a perfect match in half the time as a traditional two-stage touch-up.

### RAABE BASF SOLUTIONS

Raabe has teamed up with BASF to produce touch-up solutions using BASF's industry-leading color management system and their proven refinish platform. Raabe delivers products approved for Class A, B, C and D that live up to BASF's reputation for superior appearance, ease of use, durability, color matching and productivity. And Raabe delivers them in the custom touch-up container that you require.

**CONTAINERS AND APPLICATORS THAT ARE EXACTLY RIGHT FOR WHAT YOU NEED, WHEREVER YOU NEED TO APPLY IT**

Raabe does not force you into a “one-size-fits-all” package. We work with you to determine the best solution for your specific application. For OEM applications it means understanding your manufacturing process and where touch-up fits in. For example, for one automotive application we designed a pen-style bottle that contained an extra-long brush, so that touch-up paint could be applied to an area that couldn’t be reached by hand, and couldn’t be sprayed.

**Raabe gets it right.**

**YOU DON'T HAVE TO CROSS AN OCEAN TO GET RAABE CUSTOM COLOR**

**RAABE HAS GUARANTEED COLOR MATCH TOUCH-UP PAINT FOR ALL GERMAN, ITALIAN, JAPANESE, KOREAN AND, OF COURSE, AMERICAN CARS (FOR ANY CARS FROM ANYWHERE, ACTUALLY).**

**WE CAN SUPPLY AUTOMOTIVE OEMs LOCATED ANYWHERE IN NORTH AMERICA, QUICKLY AND EFFICIENTLY.**

**NO OTHER COMPANY CAN OFFER THE RANGE OF PACKAGING SOLUTIONS THAT RAABE DELIVERS**

### **RAABE INNOVATION ADDS VALUE TO EVERYTHING WE DO**

For a company that works with formulas, we don't have a standard recipe for working with our customers. For a company that uses many industry-standard containers for packaging, we don't try to force our customers into an off-the-shelf solution. Innovation is what drives Raabe.

So when you work with Raabe, we will push the envelope, ask tough questions, and bring you the kind of value-added solution that you deserve.

**Raabe gets it right.**

### **DISCOVER RAABE'S WIDE RANGE OF EXPERTISE**

At Raabe, we look forward to the opportunity of adding value whenever you require innovation in Color, Chemistry or Containers, delivered with unparalleled Customer Service.

Contact your Raabe representative to get the conversation started. We're ready to go to work for you.
