

# PRECISION COLOR

COLOR EXCLUSIVELY BY RAABE

*Precision Color touch-up paint restores the beauty of your product by blending into your original finish. Our attention to detail guarantees a flawless finish and Precision Color touch-up paint adheres to both liquid and powder coatings.*

The most consistently accurate custom matched touch-up paint on the market. Order after order, the color you expect is the one you get.

# RAABE

Founded in 1951, Raabe Corporation is the #1 manufacturer of custom matched touch-up paint in North America and a leading provider of private label aerosol and liquid filling services.

*At Raabe, exact match touch-up paint is our business. Our attention to detail guarantees a flawless finish.... and your product ships in about 1 week! You can count on the industry leader to create the exact match touch-up you need, on time, every time.*

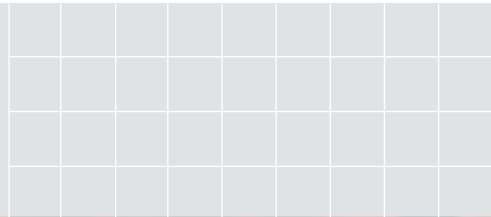

## Aerosols

Container Sizes 4.5 oz., 12 oz.

The aerosol can offers a superior finish quality, “invisibly” blending touch-up paint into the original coating.

Aerosols are easy to use and require no solvents, buckets, mixing sticks or rags. Just shake and spray – no air source required. And aerosols are ideal for recessed and other hard-to-reach areas.

Precision Color aerosols are able to match multi-color spatter finishes that replicate the appearance with the convenience of using an aerosol touch-up product.

## Brush-In-Cap Bottles

Container Size 0.6 oz.

All brush-in-cap bottles come in a clear container for quick color recognition.

The tapered insert acts as a brush wiper to prevent paint build-up at the neck. It also serves as a spill stopper if the bottle is tipped over and the portable size makes it easy to carry in your pocket or tool box for quick touch-ups.

ISO9000 control # MK010 7-00 Rev. 2

Place your order today and your product will ship in about 1 week. Call 1 (800) 966-7580

Bulk Containers
